

TRITON

OUR SECTORS

Heavy cargo

Our global inventory of Flatracks and Roll Trailers provide various solutions for safely moving heavy cargo.

OUR SECTORS – HEAVY CARGO

Equipping you to move heavy loads

Heavy and oversized freight sometimes exceeds the size or weight limits of standard dry containers. Known as Out Of Gauge (OOG) loads, they commonly consist of items such as agricultural and construction machinery, turbines, boats, and oversized metal constructions. These items can be extremely challenging to move.

We supply a vast inventory of equipment to enable the safe transportation of OOG, from Open Top Containers to specialist equipment, including Roll Trailers and Flatracks for abnormal loads that are high, wide, long, or heavy.

Triton Roll Trailers

Our Roll Trailers have capacities between 60-120 tons and are specifically designed to transport heavy and oversized loads between ports and load and unload goods from cargo ships. We lease 40ft Roll Trailers and 62ft Roll Trailers globally.

Triton Flatracks

Popular with companies that specialize in shipping OOG cargo, Triton Flatracks are ideal for transporting heavy loads such as large machinery components, construction materials, and boats. They are constructed with heavy-duty steel frames, lashing rings, and thick plank floors. We supply 20ft Flush Folding Flatracks, 40ft Flush Folding Flatracks, and 40ft High Cube Flush Folding Flatracks for lease globally. We also sell used Flatracks in an "As-Is" condition or repaired to a "Cargoworthy" export standard.

Flexible lease agreements

We supply equipment globally through more than 400 third-party-owned depots. Our leasing agreements are designed to support our customers' operational and financial objectives.

PLEASE NOTE: The following pages showcase a small sample of products in the Triton global inventory. We stock a wide range of products for lease and sale in various conditions. Get in touch with your local Triton representative for more information.

20ft Flush Folding Flatracks

CLASSIFICATION

Lease

Available via Triton's global network of supply locations.

FEATURES

- Built to carry heavy or oversized cargoes
- Great for specialized shipments of steel, pipes, drums and machinery
- Forklift pockets for easy empty handling
- Heavy duty steel frames and thick plank floors and lashing rings all around
- With flush folding end frames to allow for efficient stacking and repositioning
- Triton's industry leading new production testing and inspection criteria ensures the highest quality container
- Available in the high demand hub ports
- Backed up by Triton's global network of supply locations and dedicated leasing and support teams
- Flexible lease terms to meet your company needs
