

TRITON

OUR SECTORS

Trucking

Our extensive range of Chassis and Gensets offer a variety of solutions for moving equipment.

OUR SECTORS – TRUCKING

Keeping businesses moving

The Triton range of Chassis, Gensets, and Shipping Containers offers container trucking companies various options to move equipment within even the busiest container terminals to off-dock and inland locations.

Leasing Chassis

We offer our trucking customers various lease options designed to help them handle uncertain freight demand, balance trade flows, manage seasonality, and finance their growth.

Buying Chassis

Our in-house equipment sales group, Triton Container Sales (TCS), manages the retirement process of our used equipment, including Chassis. We combine local knowledge with our global resources to offer a range of used Chassis in various conditions at the best possible prices.

We also buy and sell new and used equipment acquired from third parties. Please get in touch with your local representative for more information.

PLEASE NOTE: The following pages showcase a small sample of products in the Triton global inventory. We stock a wide range of products for lease and sale in various conditions. Get in touch with your local Triton representative for more information.

CLASSIFICATION

For Sale: Used

Available via Triton's global network of supply locations.

23ft 6in Used Slider Chassis for 20ft Containers

FEATURES

- Designed for the transport of 20ft ISO containers
- Rugged, versatile and dependable
- Chassis available in "road worthy" condition with current FHWA inspection certificate
- Alternatively can be sold in "as is" condition, for those looking to do their own repairs or tire swaps
- In most cases chassis can be made available for survey, or pictures can be provided on request
- Backed up by Triton's global network of supply locations and dedicated sales and support teams
- Supply throughout North America from an industry leader

Carrier RG15 – Series 55 Clip On

FEATURES

- Ultra-high-efficiency generator enables full power for ISO reefers
- Simple, robust design with familiar operations and maintenance
- Compatible with all reefer machinery manufacturers
- Industry standard, proven 2.2-litre 18.5 KW diesel engine style. EU Stage V compliant, with electronic governor
- CE option included
- 455 litre fuel tank built into all-steel frame
- Standard implementation of enhanced FuelWise™ functionality, a fuel-saving technology that automatically switches the generator set between two speeds via a simple black box controller
- Reduced fuel consumption extends range of distances traveled and reduces carbon footprint
- Pin-mount system with clamp provision (clamp option). For easy attachment and detachment from container box
- Frame and sheet metal components powder-coated for durability and superior corrosion protection
- Carrier full-flow spin-on oil filter with internal bypass filtration
- Integral fuel filter with water separator
- High-efficiency air cleaner
- 12V DC maintenance-free battery and solid state battery charger
- **NEW!** Track and Trace options available
